- Project ID No. WRDD000024 - sheets 14A and 14B

The recommended construction and maintenance service contracts are necessary to execute Board-directed and approved Department of Public Works projects in support of operational missions. Your Board's approval of the recommended contract awards and the subsequent execution of the contracts will ensure the timely completion of the projects.

Implementation of Strategic Plan Goals

The Countywide Strategic Plan directs that we provide Service Excellence (Goal 1) and Community Services (Goal 6). Awarding these contracts will provide improved infrastructure to better serve the public and will enhance the quality of life in the affected communities.

FISCAL IMPACT/FINANCING

These actions will have no impact to the County General Fund.

The attachment for each project includes the amount of the recommended contract as compared with the engineer's estimate and the other bids received.

Sufficient funds for Project ID Nos. FCC0001011, FCC0001027, FCC0001030, FCC0001034, FCC0001039, FCC0001072, FCC0001079, FCC0001081, FCC0001088, FMD0003098, and WRDD000024 are included in the Flood Control District Budget for Fiscal Year 2007-08.

Sufficient funds for Project ID No. RDC0012441 is included in the Fiscal Year 2007-08 Road Fund Budget.

Sufficient funds for Project ID No. RDC0013707 is included in the Fiscal Year 2007-08 Proposition C Local Return Fund and Road Fund Budget.

Sufficient funds for Project ID No. SMDACO0111 is included in the Accumulative Capital Outlay Fund of the Fiscal Year 2007-08 Consolidated Sewer Maintenance District Budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The contract agreements will be in the form previously reviewed and approved by County Counsel. The recommended contracts were solicited on an open competitive basis and are in accordance with applicable Federal, State, and County requirements. The contractors are in compliance with the Chief Executive Officer's and your Board's requirements.

These contracts contain terms and conditions supporting your Board's ordinances, policies, and programs, including but not limited to: County's Greater Avenues for Independence and General Relief Opportunities for Work Programs (GAIN and GROW), Board Policy No. 5.050; Contract Language to Assist in Placement of Displaced County Workers, Board Policy No. 5.110; Reporting of Improper Solicitations, Board Policy No. 5.060; Notice to Contract Employees of Newborn Abandonment Law (Safely Surrendered Baby Law), Board Policy No. 5.135; Contractor Employee Jury Service Program, Los Angeles County Code, Chapter 2.203; Notice to Employees Regarding the Federal Earned Income Credit (Federal Income Tax Law, Internal Revenue Service Notice 1015); Contractor Responsibility and Debarment, Los Angeles County Code Chapter 2.202; and the Los Angeles County's Child Support Compliance Program, Los Angeles County Code, Chapter 2.200; and the standard Board-directed clauses that provide for contract termination or renegotiation.

The State Public Contract Code requires the County to award construction contracts to the lowest responsive and responsible bidder, which is defined as the firm that; (1) submits the bid with the lowest cost; (2) is deemed by the County to be responsive to specific criteria under the solicitation, including, but not limited to licensure, bonding,

and insurance requirements; and (3) is determined by the County to be a responsible bidder by exhibiting the capability, capacity, experience, trustworthiness, and financial wherewithal to perform the work required under the bid solicitation.

To ensure the contracts are awarded to the lowest responsible contractor with a satisfactory history of performance, bidders are required to report violations of the False Claims Act, criminal convictions, civil litigation, defaulted contracts with the County, complaints filed with the Contractor's State License Board, labor law/payroll violations, and debarment actions. As provided for in Board Policy No. 5.140, the information reported by each respective contractor was considered before making this recommendation to award.

The plans and specifications include the contractual provisions, methods, and material requirements necessary for this project and are on file with the Department of Public Works.

ENVIRONMENTAL DOCUMENTATION

On March 11, 2008, your Board approved the Mitigated Negative Declaration and the Mitigation Monitoring and Reporting Program for Project ID No. FCC0001039.

The remaining projects were found to be categorically or statutorily exempt from the provisions of the California Environmental Quality Act at the time your Board called for bids. The specifics of these findings are included in the attachment for each project.

CONTRACTING PROCESS

The contracts were solicited on an open competitive basis in accordance with the provisions of the Public Contract Code.

The State Labor Code requires contractors to pay prevailing wage rates to all persons employed on public works construction contracts. These rates are determined by the Department of Industrial Relations and include contributions for fringe benefits such as vacations, pension funds, training, and health plans for each employee.

To further increase contractor awareness of contracting opportunities with the Department of Public Works, each of these projects was listed on the County website for upcoming bids.

The Department of Public Works will review and approve the faithful performance and payment bonds filed by the contractors.
